Skype have introduced a new setting on the 1st of July. This new setting stops our service from sending you calls. **You must disable this service** to allow calls to call your Skype number.

To disable this service on your Skype number, please follow the instructions below.

1. Go to Account & Profile
2. Go to your Skype number and press **settings**

3. Press **Manage your Skype number.**

< **+44 1244 94 1341**

This Skype Number is active.

This Skype Number supports Caller ID.
